OBJECTIVE

Software Engineer with experience in DevOps, MERN, Cloud seeking full-time roles.

EDUCATION

Bachelor of Computer Science, Mumbai University 2020 - 2024

Technical Skills DevOps, AWS, React , Express, NextJS

Soft Skills Communication, Tech Adaptability, Problem-solver, Documentation

Tech Stack MERN, Typescript, Kubernetes , Jenkins , Docker .

EXPERIENCE

DevOps Engineer, Everymedia, Mumbai | Sep 2024 – Present

- **Deployed and managed MERN/WordPress sites on LAMP servers, optimizing performance.**
- **Automated workflows (AWS S3 CDN, cronjob backups, SSL) to boost reliability and security.**
- **Configured FTP, domain mapping, and set up Nginx/Apache for load balancing and reverse proxy.**

Cloud Infra Associate, Dronapay, Remote | May 2024 – Sep 2024

- **Monitored infrastructure with Grafana and resolved issues via log analysis.**
- **Built scalable, version-controlled environments using Terraform.**
- **Implemented GitOps for CI/CD using Jenkins and ArgoCD.**
- **Managed multi-cloud applications and automated log backups with Bash scripts.**
- **Leveraged AWS for secure and cost-effective cloud management.**

Jr. DevOps Engineer, Trav stack, Remote | Jun 2022 – Sep 2022

- **Cut deployment downtime by 25% through Blue/Green strategies and optimized Kubernetes settings.**
- **Migrated from a monolithic to microservices architecture, improving scalability by 30%.**
- **Developed a CI/CD pipeline with GitHub Actions and Jenkins for AWS ECS, reducing deployment cycles by 40%.**

PROJECTS

Infrastructure Provisioning and Deployment Solution. Utilized Terraform to provision servers and deploy features, optimizing infrastructure efficiency.

Jenkins Autoscaling Setup . Configured Jenkins on an AWS Autoscaling group with an Application Load Balancer and EFS filesystem, enhancing scalability and data management.

LEADERSHIP

Led college teams in regional and national hackathons, showcasing leadership and innovation for top placements.
